Profile

React Native Developer with 3+ years of experience building scalable cross-platform mobile applications using React Native, Expo, TypeScript, Redux, and Firebase. Experienced in developing healthcare, government, and enterprise-grade applications with a strong focus on performance, maintainability, and user experience. Skilled in API integration, state management, CI/CD, mobile architecture, and Agile development practices.

Work Experience

Software Engineer, *Mindbowser Inc*
07/2025 – Present | Pune, Maharashtra

- Developing healthcare and enterprise mobile applications using React Native, Expo, and TypeScript.
- Building reusable components, integrating REST APIs, and optimizing application performance.
- Collaborating with cross-functional teams in Agile environments and contributing to code reviews and release processes.

Software Developer, *Luminous Infoways*
05/2023 – 07/2025 | Bhubaneswar, Odisha

- Developed and maintained cross-platform mobile applications using React Native and modern frontend technologies.
- Created reusable components, integrated APIs, and enhanced application performance and scalability.
- Collaborated with designers and backend teams to deliver responsive, user-friendly mobile solutions.

Education

PG-DAC, *Soft Polynomials, Nagpur*
09/2021 – 04/2022

BE, *Dhole Patil College, Pune*
07/2017 – 09/2020

Companies Projects

OrganOptima, *React Native | Firebase | Healthcare*

- Mobile healthcare platform supporting kidney transplant patients, transplant centers, and healthcare coordinators throughout the organ donation and transplant process.
- Developed patient and coordinator-facing mobile applications, implementing authentication, notifications, patient management, donor-recipient matching, transplant workflows, and real-time updates.

Rainyday Parents, *React Native | Firebase | Community*

- Community-driven mobile application that helps parents discover local activities, connect with nearby families, and engage with parenting communities.
- Developed core mobile application features including authentication, community boards, messaging, parent matching, media sharing, and user engagement functionalities.

PPMS Mobile App, *React Native | Government Platform*

- A mobile solution for Panchayatraj Project Management System, allowing users to track, update, and analyze project data.
- Contributed to frontend development, emphasizing dynamic dashboards and user-friendly data presentation.

Professional Highlights

- Delivered multiple production-grade mobile applications across healthcare, government, and enterprise domains.
- Developed reusable mobile components that improved development efficiency.
- Contributed to CI/CD and release automation processes.
- Experience publishing and maintaining Android and iOS applications.

Skills

Mobile Development — React Native, Expo, TypeScript, JavaScript (ES6+)

State Management — Redux, Redux Toolkit, Redux Saga, Context API

Backend & APIs — Node.js, Express.js, REST APIs, GraphQL, JWT Authentication

Tools & AI — Postman, Docker, Claude AI, ChatGPT, GitHub Copilot, Responsive UI Design, Website Optimization, GitHub, Webpack, Vite, Babel, Jest, SDLC
